Chairman's Message

Educating Minds. Changing lives.

Welcome to JDS Setting new standards of excellence in education.

The importance of Institute in the preparation of young Technician for working in specialized fields cannot be over emphasized. The demand from Industry is more and more for young men who are able to meet their expectations. The requirement of skilled manpower has been grown in the Industries not only quantitatively but also qualitatively. The Industrial Engineer is continually being confronted by new problems and not able to solve by routine methods of solution. The young Technician can successfully cope up with such problems who have sound understanding of the fundamental principles that apply and familiar with various general methods of attack rather than proficient in the use of any one. It seems evident that Technical training in institutes must seek to build a strong foundation, to acquaint the student with as many general methods of attack as possible and to find the standardized method of solution. Such are the aims of the Institution.

Choosing an educational program is one of the most crucial decisions in any student's life because this decision will have impact in his/her life thereafter. From my perspective, JDS is endeavoring to be a successful institute that gives holistic education to its students, creates better employment opportunities and contributes exceptionally to the mental, physical and academic excellence. We have combined our resources to bring you the finest, most comprehensive way of education.

JDS offers Electrician & Fitter trade from NCVT. One to One student support. Affordable fee structure. Overall, you can look forward to a first-class educational experience that meets your highest expectations. Students/ Trainees after completion of the two year ITI courses in this trade, have scope of getting jobs in foreign country, Govt. jobs in Central and State Govt. departments particularly in Indian railway/ Indian Air Force/ industries etc.

Dear students, I invite you to take on this journey with us to become a responsible technician of the 21century. In a two year span JDS will help you reach higher, study smarter and advance faster than ever.

Fulfill your parents' dream, institution's goals, and more importantly your own aspirations.

Here's to your new life!
